President's Message:

Happy New Year Everyone!! Are you ready for this "3" year? It's all about Creativity, Self-Expression and Manifestation. What fun and creative things are in your future? Will you be energizing and drawing them to you?

That is our plan for SDRC!! We have a fun and fulfilling year planned and hope you will stay tuned-in and come join us. We're especially excited about the **Conference, "Energy Healing - The Future is Now"**. More and more details are coming together and it feels like a special energy is unfolding around it. Be sure to invite your friends in the medical field and other holistic and alternative practitioners. There should be something for everyone.

Our first Gathering of 2019 is a **Conference Kick Off Event and Pranic Healing Workshop**. Many of you might have seen Michelene when she presented in 2016, if not, it will be a must experience!!

We're also thinking it's a good idea to gather together with Reiki Masters across the County for a day of exchanging ideas and knowledge. We want to invite all Masters to our **Reiki Master Congress** in March to make sure all voices are heard and combined, including discussions about business ethics and any laws that the State of California might be contemplating. We feel it's important to start a conversation about the legal possibilities. And we want to know what kind of support you might need from SDRC to help you in your Reiki Business and Practice.

Our last event before the Conference is a **Self Care Saturday**. It is in April, just before tax day, so hopefully everyone will have their taxes finished and be ready to de-stress.

The **Conference** is in May and the **Annual Board Meeting** in June is open to all members.

Year end possibilities: Reiki and Food, Art as a Healing Modality, sponsoring a Marilyn Harper Workshop, EFT/Tapping, stories and a photo trip to Mt Kurama, and of Course our Holiday Celebration.

Looking forward to seeing you at all our events!!

Namaste

Story #8

Some years back I was involved in a Reiki Study for Elizabeth Hospice. It was an amazing experience as we saw about 50 patients - 3 times each, once a week. It was interesting to see a consistent drop in pain levels and consequently their need for pain medications.

But several individuals has other experiences. One such gentleman, about 50 years old was in a facility. He was dying from alcohol related complications to his health. None of his family were willing to help him as he had burned many bridges along the way. Even his daughter wanted nothing to do with him.

5 of us visited him, doing Reiki for about 20 minutes each visit and had similar validating experiences. The first time – I kept hearing “you are loved”, repeated throughout the entire session. I don’t often get messages so when I do; it is a direct sign to say what I hear. When he heard the words, his eyes opened wide and he really took it in, and believed it.

The second visit I heard more specific words. Now this felt like such a risk and yet it was as if Spirit was pushing me to say them exactly. “If you feel you made choices in your life and did not like the consequences, you can choose a different way of being when you walk thru the door to your next chapter.” Ok, this was intense and I didn’t know how he was going to respond. Again he was wide eyed and believed it.

The last visit, I watched as the Reiki restructured his biology to delete the alcoholism from his cells and from his DNA. And all the other practitioners saw or felt something similar to validate what changed. WOW!!!

Now of course we have no way of knowing what happened to him as he crossed, but the experience certainly changed my mind about what is possible with Reiki and the choices we make. Reiki is a Blessing to all who give and who receive it.
